

**Hello everyone... There's less than six days left to respond!**

**Keep the 'Adisham New Town' scheme out of the new CCC plan.**

**Your Urgent action needed THIS WEEK!**

**SAVE IT!**

**Write your response by 5pm Mon June 3rd:**

- Congratulating CCC (Canterbury City Council) on removing Adisham New Town from the previous plan.
  - Telling CCC that you support the new sustainable development strategy
- Saying why you thought the new town joining Adisham to Aylesham would never have worked.
- State the reasons you gave previously such as: destruction of productive farmland and precious landscape; lack of suitable water and sewage infrastructure; unsustainable impact on local roads.  
All are still relevant
- Point out that no further house building proposals happen south east of Canterbury until the Mountfield Estate is completed
